

# Chapter 1

## Get involved

We welcome any feedback (such as bug reports, suggestions for improvement and other constructive criticism) and would particularly love to hear from you if the library has helped you to solve any of your problems.

We also welcome contributions to the library itself, in the form of

- Additional demo codes/tutorials
- Code that provides additional functionality to the library.

If you wish to contribute to the library you may wish to check our [To-Do List](#) for a list of on-going and future developments.

The developers can be contacted at
